Funding for Iconic Facilities opens 10th October 2011

The Iconic Facilities fund will direct capital investment into a small number of strategic facility projects that will significantly contribute to an increase in mass participation in sport across England. These facilities will be promoted as best practice and will provide a network of regional sports facilities delivering mass participation across a number of sports. Sport England will use this fund to support projects that bring together multiple partners, including input from the public and private sectors and national governing bodies of Sport (NGBs). The fund is also designed to encourage applicants and their partners to invest further capital and revenue funding to ensure sustainability.

On-line applications can be submitted at any time from 10 October 2011, up until 5pm on the 19 December 2011
